UNITED

WE STAND FOR LIFE

We need you!

Change begins quietly – with one person willing to step forward.

We equip you with the tools, training, and support to reach women who need hope most.

LEARN MORE

What is Options United?

Options United operates **a confidential hotline that women can call to be connected with life-affirming resources**. Our trained responders speak truth with clarity, offering compassionate guidance while making it clear that abortion services are not provided.

Our mission is to give women honest information and assist them in accessing support that affirms life.

This gentle, respectful approach has led to an average **over 200 confirmed babies saved each year** since our founding. With your support, we aim to significantly increase that number in the years ahead.

Why a hotline number?

When a woman facing an unplanned pregnancy searches for support, the first place she often turns is the internet. When her search leads her to Options United, we are able to engage with her situation compassionately — without coercion.

With the growing ease of access to the abortion pill, many women are choosing abortion without ever stepping foot into a clinic. **Our goal is to meet her before she contacts the abortion industry**, offering guidance, support, and life-affirming options.

Your outreach can make a real difference:

- Increase accessibility of our hotline to reach more women in need.
- Boost donations to expand our call center and serve more women.
- Connect churches to our mission, creating lifelong relational impact for women and their children.

Together, we can ensure that women know they have a safe, truthful, and supportive option — and that every life has a chance to be celebrated.
